#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Response to Arguments*

1. The Examiner has carefully considered Applicant's response dated 05/16/05. The Terminal Disclaimer and amendments have been entered. Said amendments and Terminal Disclaimer remedy the rejections/objections made in paragraphs 1, 3-9 of the previous office action. The objection of paragraph 2 is maintained, as it was not addressed by Applicant. Please amend the subtitle on page 2 to state "Detailed Description of The Drawings". Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over USPN 4453271 issued to Donzis in view of USPN 5274849 issued to Grilliot et al.

USPN 4453271 issued to Donzis discloses the protective garments including shoulder pads made from superimposed plies of lightweight non-elastic fluid impervious fabric material (abstract). USPN 5274849 disclose an outer flame resistant fabric layers bonded to an intermediate moisture barrier film. A person having ordinary skill in the art at the time the invention was made would have found it obvious to have employed the flame resistant fabric /film laminate of USPN 5274849 as the superimposed plies of USPN 4453271. One would have been motivated to use a fire resistant/fluid impervious film as the layers of choice in the

Art Unit: 1771

composite of USPN 4453271 because it would be useful in a penetration resistant or ballistic garment so that it does not catch fire.

With regard to claim 5, the instant patent shows that it can be filled with fluid or air (gas). It does not explicitly teach the use of filling it with a gel. It is the position of the Examiner that one versed it in the art of inflatable devices would have employed a gel instead of fluid or a gas as the medium of choice. One would have been motivated in doing so, in order to provide a more cushioning effect yet still effective device, because is by chance the inflatable device ruptures the gel will still be in the device, whereas a gas or fluid will have escaped out.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ms. Arti Singh whose telephone number is 571-272-1483. The examiner can normally be reached on M-F 9-5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 571-272-1478. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
